Starting and Using the Server

To start the server, find the Server.jar in the file explorer. Double clicking on the java file may work, but in case of Java errors, try running the runServer.bat file

The server is a command line application and will open in the system Command Line

Here you will have to do complete two prompts.

```
C:\Users\RaedrimPC\Desktop\VIA\SEP\Yes_SEP2\Jar Tests>java -jar server.jar
Please specify the username for the Database!
```

First it will ask for your username which connects to the PostgreSQL server.

```
C:\Users\RaedrimPC\Desktop\VIA\SEP\Yes_SEP2\Jar Tests>java -jar server.jar
Please specify the username for the Database!
postgres
Please specify the password for the Database!
```

Type your username and press enter, after that it will ask for your password.

```
Game list refreshed
Registry started....
server started...
Press [1] to create a XML file of the transactions!
Press [0] to close the server
```

If authentication was successful, this is what will appear on screen. In case of authentication errors, run the server again and make sure you enter the information correctly.

If you see this screen, the server is running and functional. Here you can type in one and press enter to create an XML file of the transactions. This useful for debugging purposes.

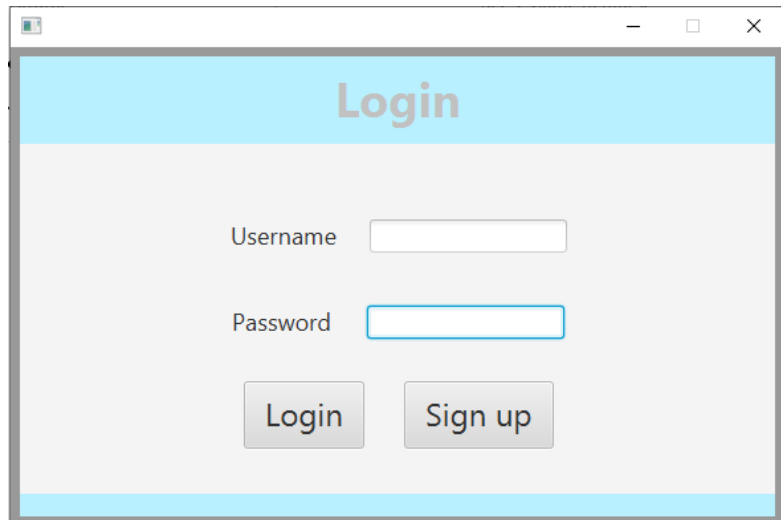

You can also press zero to close the server, which will terminate any existing connections.

Entering the admin panel

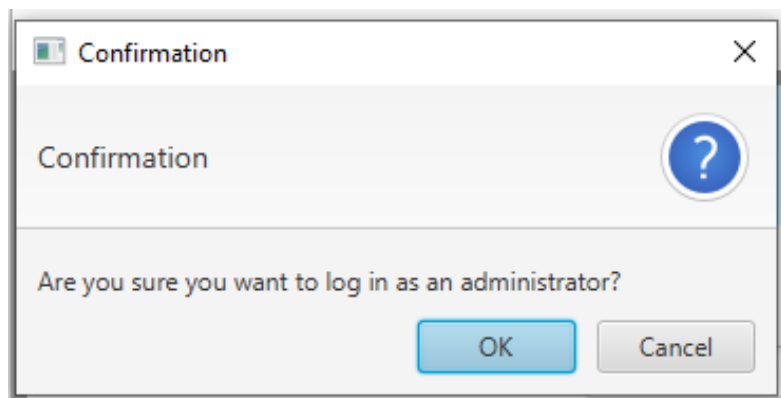

After launching the program and connecting to the server you will program will greet you with this screen.

You can use this screen to login to the administrator account.

To enter use the username: **admin** with the password: **admin**

A screenshot of a web application window titled "Login". The window has a light blue header bar with the word "Login" in a large, bold, dark blue font. Below the header, the background is light gray. There are two input fields: "Username" and "Password", both with white text and a light blue border. Below the "Password" field, there are two buttons: "Login" and "Sign up", both with a light gray background and a thin blue border. The window has standard Windows-style window controls (minimize, maximize, close) in the top right corner.

If user authentication was successful, you will be greeted with the following screen: if you press **OK**, you'll enter the administrator panel. If you wish to return to the Login panel you may press **Cancel**.

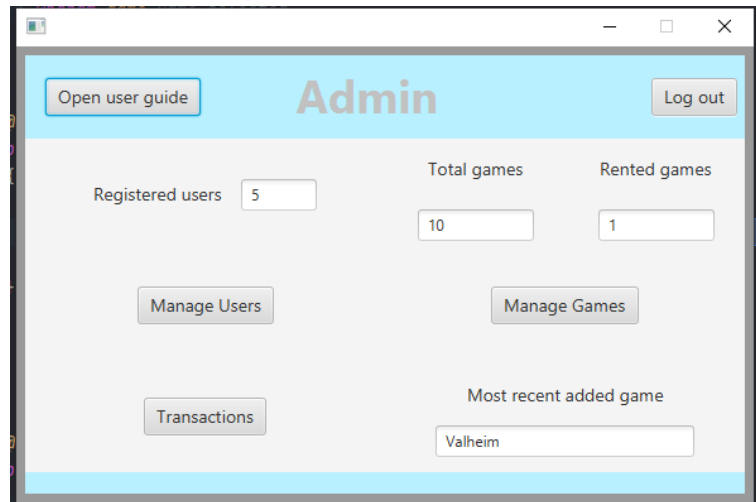

A screenshot of a Windows-style dialog box titled "Confirmation". The dialog has a light gray background. At the top left, there is a small icon of a document with a checkmark. To the right of the title bar is a close button (X). Below the title bar, the word "Confirmation" is displayed in a dark blue font. To the right of the text is a circular icon with a blue background and a white question mark. Below this, the text "Are you sure you want to log in as an administrator?" is displayed in a dark blue font. At the bottom right, there are two buttons: "OK" and "Cancel", both with a light blue background and a thin blue border.

The key features of the admin panel

Welcome to the admin panel!
Please note that depending on the state of the database, the information may change compared to the picture shown.

On this screen you have several options.

On the top left you can see the number of all registered users in the system. Below the counter there is a button that allows you to manage User information.

The Transactions button opens a new window that shows all logged transactions in the database.

On the right there are two counters, one is for the total number of games registered in the system, the other is for the ones that are rented by the users out too. Below these is a button to manage the games.

For informational purposes, the program also shows the last added game at the bottom.

Click any of the buttons to go into their respective menus.

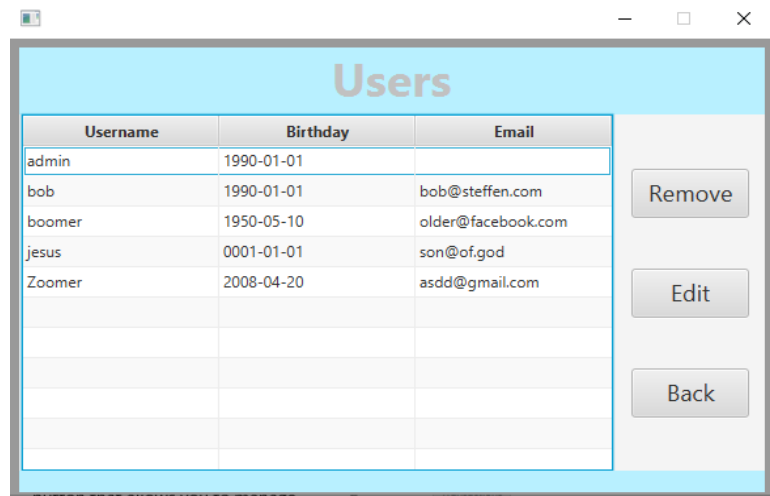

If you ever change your mind, you can always press the Log out button, to go back to the login screen, following a confirmation.

Managing Users

On this screen you can see a list of all registered users, including the administrator account that we are signed in with.

On this screen you can click on one of the users to select. When a row is selected it will have a blue color.

Once you selected you can click on remove, to remove the user from the database. After clicking remove a confirmation window will pop up, where you can press cancel if you change your mind.

| Username | Birthday | Email |
|----------|------------|--------------------|
| admin | 1990-01-01 | |
| bob | 1990-01-01 | bob@steffen.com |
| boomer | 1950-05-10 | older@facebook.com |
| jesus | 0001-01-01 | son@of.god |
| Zoomer | 2008-04-20 | asdd@gmail.com |
| | | |
| | | |
| | | |
| | | |

You can also click edit to change the user information which will make a new window open.

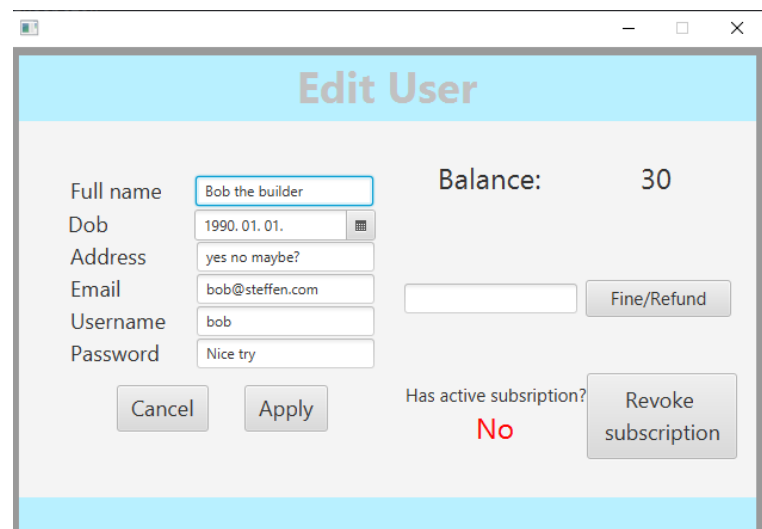

Please keep in mind that for both functions if no user was selected nothing will happen.

If you click Back, you will be taken back to the admin panel shown in section 2.

On the Edit user screen, you have a list of all the information stored about a user. To change the selected information to the new values, simple delete the content that is inside the given field and replace it with the updated version.

After changing the information, you can hit apply to store the added information in the database.

Keep in mind that the Username and Password field cannot be edited.

Edit User

Full name: Bob the builder
Dob: 1990. 01. 01.
Address: yes no maybe?
Email: bob@steffen.com
Username: bob
Password: Nice try

Balance: 30

Has active subscription? No

Buttons: Cancel, Apply, Fine/Refund, Revoke subscription

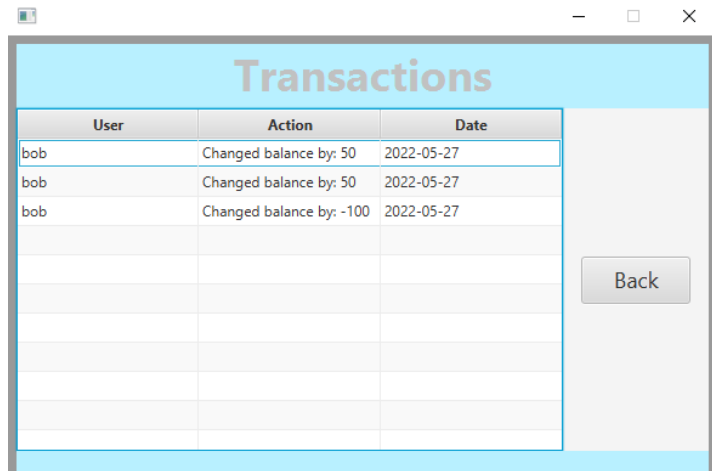

On this screen you also have the option to issue refunds or fine the selected user. Simple type in any amount in the field left of the Fine/Refund button to modify the user balance by. I.e.: you can type in 40 and hit the button to increase the user balance to seventy in this example (Refund), or you can type in -20 to decrease it to ten (Fine). If you want, you can also click the Revoke Subscription to immediately cancel a users subscription status. If you ever change your mind, you can always click Cancel to go back to the Users screen.

Viewing Transactions

On this screen you can view Transactions that are logged in the database.

You can see the action that got recorded i.e.: changing the balance, the User that did the action, and the date it happened on.

On this screen you cannot change any data, but it gives you an easy-to-understand overview of what happened on the system.

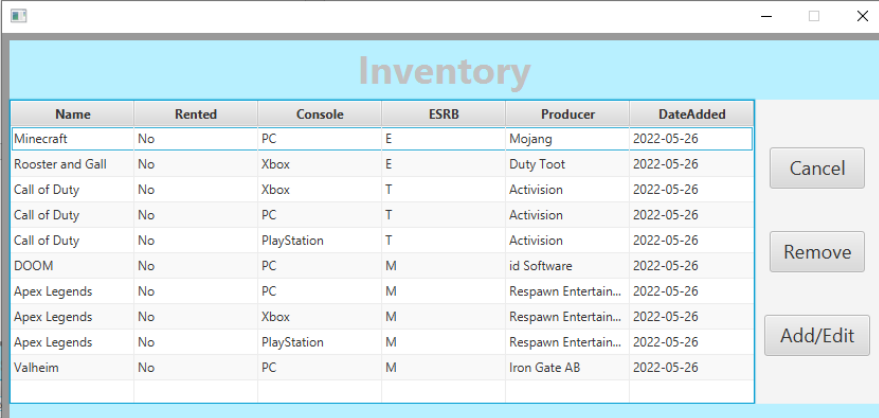

After you finish viewing the Transactions you can press Back to go back to the admin panel.

Managing the Games

On this screen you can see a list of all the videogames stored in the database. Similarly, to the Users panel, you can click on any of the rows to select.

After an item has been selected you can either click the Remove button to delete the selected game from the database or click the Add/Edit button to edit the games information.

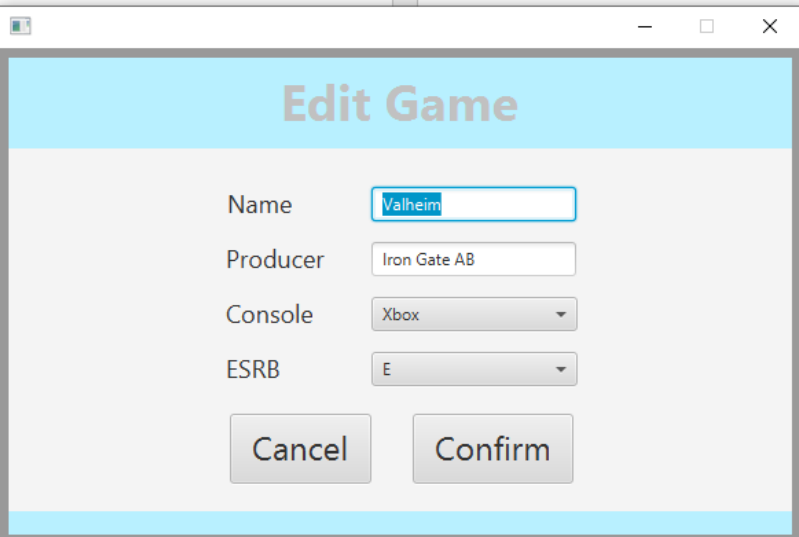

| Name | Rented | Console | ESRB | Producer | DateAdded |
|------------------|--------|-------------|------|----------------------|------------|
| Minecraft | No | PC | E | Mojang | 2022-05-26 |
| Rooster and Gall | No | Xbox | E | Duty Toot | 2022-05-26 |
| Call of Duty | No | Xbox | T | Activision | 2022-05-26 |
| Call of Duty | No | PC | T | Activision | 2022-05-26 |
| Call of Duty | No | PlayStation | T | Activision | 2022-05-26 |
| DOOM | No | PC | M | id Software | 2022-05-26 |
| Apex Legends | No | PC | M | Respawn Entertain... | 2022-05-26 |
| Apex Legends | No | Xbox | M | Respawn Entertain... | 2022-05-26 |
| Apex Legends | No | PlayStation | M | Respawn Entertain... | 2022-05-26 |
| Valheim | No | PC | M | Iron Gate AB | 2022-05-26 |

On the Edit Game panel, similarly to the User edit you can delete the current data, to replace it with new Values.

With the Console and ESRB ratings use the dropdown menus to set it to the desired value.

After changing the data click Confirm to save your changes or cancel to discard them and return to the Inventory.

Edit Game

Name:

Producer:

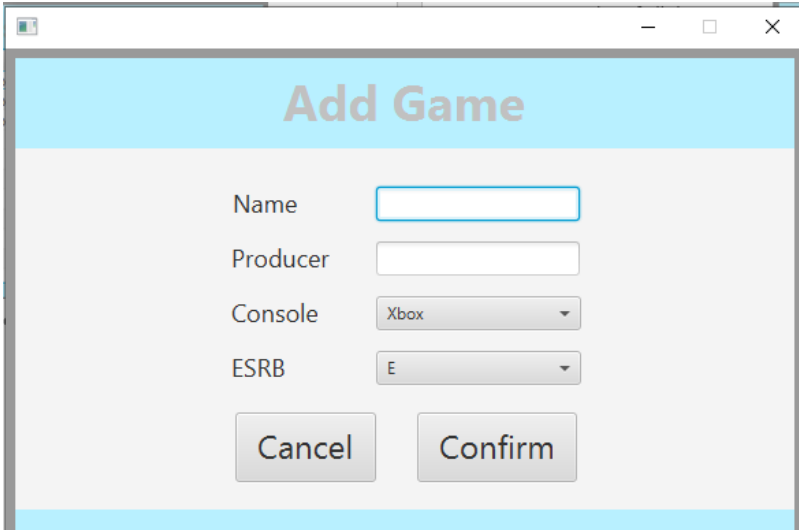

Console:

ESRB:

The Add/Edit button also has a unique feature, that if no item from the table has been selected, when the button was clicked, it opens a new window where you can add a new game the list.

After changing the data click Confirm to save your changes or cancel to discard them and return to the Inventory.

Keep in mind that all fields must be filled to save your changes

Add Game
